

Life Insurance Renewal Dashboard

Version

1.0

Project Name

Probus Life Insurance Renewal Dashboard

1. Introduction

Purpose

The Life Insurance Renewal Dashboard is designed to provide a centralized view of policy renewal performance, premium collections, persistency rates, branch performance, relationship manager performance, and insurer performance.

The dashboard enables business users to monitor renewal trends, identify policy lapses, improve customer retention, and maximize renewal revenue.

2. Business Objective

The primary objectives of the system are:

- Monitor policy renewal performance.
- Track due, renewed, and lapsed policies.
- Measure premium persistence rates.
- Analyze branch and region-wise performance.
- Evaluate Relationship Manager (RM) effectiveness.
- Compare insurer-wise renewal performance.
- Enable data-driven decision making.

3. Target Users

User Type	Responsibilities
Admin	System administration and configuration
Business Head	Monitor overall renewal performance
Regional Manager	Monitor regional performance
Branch Manager	Monitor branch performance
Relationship Manager	Track assigned policy portfolio
Analyst	Analyze trends and generate insights

4. Dashboard Modules

Module 1: Dashboard Overview

Provides a high-level summary of renewal metrics.

KPIs

Premium Issued

Total premium amount generated within selected filters.

Premium Active

Total active premium amount successfully renewed.

Premium Cancelled

Total premium amount cancelled or not renewed.

Activation Rate

Percentage of active premiums compared to total issued premiums.

Formula:

Activation Rate = (Active Premium / Issued Premium) × 100

Module 2: Filter Management

Allows users to filter dashboard data.

Available Filters

Filter	Description
Issue Date	Policy issue date
Due Date	Renewal due date
Product	Insurance product
PIPS	Product category
Region	Geographic region
Branch	Branch selection
Auto Pay	Auto-pay enabled policies
Insurer	Insurance company
Time Period	Daily, Monthly, Yearly

Module 3: Metric View Selection

Allows switching between:

Premium View

Displays premium amount values.

Example:

₹4.00 L

₹3.70 L

₹0.30 L

NOP View

NOP = Number of Policies

Displays counts instead of premium values.

Example:

Issued Policies = 1200

Renewed Policies = 1090

Cancelled Policies = 110

Module 4: Premium Trend Analysis

Displays renewal trends over time.

Supported Persistency Views

MOM

Month-on-Month renewal analysis.

13th Month Persistency

Measures renewal performance after 13 months.

61st Month Persistency

Measures long-term policy retention.

Trend Metrics

Metric	Description
Due	Premium due for renewal

Renewed	Successfully renewed premium
Lapsed	Non-renewed premium
Renewal Rate	Renewal percentage

Tooltip Information

On hover, users can view:

- Premium Due
- Renewed Premium
- Lapsed Premium
- Renewal Rate

Example:

Premium Due = ₹116.50 L

Module 5: Renewal Calendar

Provides day-wise renewal performance visualization.

Features

- Monthly renewal calendar
- Daily renewal statistics
- Due policy count
- Premium amount
- Renewal percentage

Color Indicators

Color	Meaning
Green	Greater than 90%
Yellow	Between 85% and 90%

Red Less than 85%

Calendar Tooltip

Displays:

- Date
- Due policies
- Premium value

Example:

Date: 23 June 2026

Due Policies: 68

Premium: ₹17.00 L

Module 6: Branch Performance

Displays branch-wise rankings.

Features

- Top Performing Branches
- Lowest Performing Branches
- Branch Ranking
- Renewal Percentage

Available Views

- Branch
- Region

Example:

Trivandrum Branch

Renewal Rate: 89%

Module 7: Relationship Manager Performance

Displays RM-wise renewal performance.

Features

- Top Performing RMs
- Lowest Performing RMs
- Renewal Percentage
- Premium Managed

Available Views

- RM
- POSP

Example:

Rahul Gupta

Premium: ₹2.6L

Renewal Rate: 98%

Module 8: Insurance Company Performance

Displays insurer-wise performance.

Features

- Top Performing Insurers
- Lowest Performing Insurers
- Premium Contribution
- Renewal Rate

Sample Insurers

- HDFC ERGO
 - New India Assurance
 - ICICI Lombard
 - SBI General
 - Star Health
 - Bajaj Allianz
-

5. Analytics Module

The Analytics page enables advanced data exploration.

Analytics Filters

Data Scope Filters

- Region
- Branch
- Product
- Auto Pay

Time Frame Filter

Examples:

- Last 7 Days
 - Last 30 Days
 - Last Quarter
 - Last Year
-

Grouping Options

Users can group analytics by:

- PIPS
 - Region
 - Auto Pay
-

Visualization Types

Bar Chart

Compare due, renewed, lapsed, and renewal rates.

Line Chart

Trend analysis over time.

Pie Chart

Percentage distribution.

Available Metrics

Metric	Description
Due	Due premium
Renewed	Renewed premium
Lapsed	Lapsed premium
Rate %	Renewal percentage

6. Use Cases

UC-01 View Dashboard

Actor

Business Head

Steps

1. Login.
2. Open Dashboard.
3. Review KPIs.
4. Analyze renewal performance.

Expected Result

The user gets a complete business overview.

UC-02 Filter Dashboard Data

Actor

Regional Manager

Steps

1. Select region.
2. Select branch.
3. Apply date range.
4. View updated metrics.

Expected Result

Dashboard updates based on selected filters.

UC-03 Analyze Premium Trends

Actor

Analyst

Steps

1. Select persistency period.
2. View trend graph.
3. Compare due, renewed and lapsed values.

Expected Result

Identify renewal trends.

UC-04 Monitor Renewal Calendar

Actor

Operations Team

Steps

1. Open renewal calendar.
2. Identify low-performing dates.
3. Investigate renewal shortfalls.

Expected Result

Improved renewal planning.

UC-05 Compare Branch Performance

Actor

Regional Manager

Steps

1. Open Branch Performance section.
2. View Top 10 branches.
3. View Bottom 10 branches.

Expected Result

Identify best and worst performing branches.

7. Functional Requirements

ID

Requirement

- | | |
|-------|---|
| FR-01 | System shall display premium KPIs |
| FR-02 | System shall support Issue Date filtering |
| FR-03 | System shall support Due Date filtering |

- FR-04 System shall support Region filtering
 - FR-05 System shall support Branch filtering
 - FR-06 System shall support Insurer filtering
 - FR-07 System shall support Premium/NOP view switching
 - FR-08 System shall display premium trend chart
 - FR-09 System shall display renewal calendar
 - FR-10 System shall display branch rankings
 - FR-11 System shall display RM rankings
 - FR-12 System shall display insurer rankings
 - FR-13 System shall support analytics visualizations
 - FR-14 System shall provide drill-down analytics
-

8. Data Flow

9. Success Metrics

- Increased renewal rates

- Reduced policy lapses
- Improved branch performance visibility
- Better RM productivity tracking
- Faster business decision making
- Improved persistency monitoring
